

## PRESS RELEASE

# ColliCare opens new establishment in Jönköping

Gothenburg/Jönköping, October 2021

**ColliCare Logistics continues its expansion in Sweden and the Nordic region, by opening an office in Jönköping from the 1<sup>st</sup> of October. The office in Jönköping will be part of ColliCare Logistics AB and focus on Intra-Nordic transport solutions. The ColliCare Group already has Nordic offices in Norway, Denmark and Finland.**

### Development for ColliCare in Sweden

**In the first half of 2021, ColliCare experienced a 50% sales increase compared to 2020. The 2021 forecast shows a strengthened result of 310 million SEK. ColliCare Logistics AB has 42 employees, and their journey continues with the new Swedish departments.**

Earlier this year ColliCare opened an office in Sundsvall, with three employees. The main focus for Sundsvall is Domestic solutions, but they also handle other freight services. The Gothenburg office also moved to new premises this summer.

Earlier this year the furniture chain Mio signed with ColliCare on freight solutions from the Baltics to Sweden and directly to all their stores. Together with one of ColliCare's other large customers; Julia, this shows that ColliCare has good solutions for the retail industry.

ColliCare Logistics AB should be the natural choice when looking for flexible and customized distribution, offering high quality and experience in the Nordic market. Additional services are import and export by sea, air, rail and road.

Mats Lindahl will manage the new office in Jönköping. He most recently held a position as Product Manager at Agility. The rest of the team in Jönköping consists of Greger Szepesvari, David Bergström and Marie Lagerström, all three of whom have long experience within logistics, and who effectively built the Intra-Nordic traffic at Agility. For many years now, they have worked closely with ColliCare in Norway and their domestic distribution department.

The team in Jönköping holds a long and solid experience in Nordic distribution, it is exciting that all three have chosen to become a part of ColliCare.

*« The team in Jönköping are looking forward to becoming a part of the ColliCare Logistics Group. It allows us to use our extensive network, which enables us to offer even more efficient and customized distribution within the Nordic market..» - Mats Lindahl, Product Manager at ColliCare Logistics AB.*

*«We have known Mats and his team for several years, through the distribution collaboration with Agility, and our Norwegian company. So it's very inspiring and exciting that we've brought all three over to us. It makes us feel extremely confident and focused on a new business area. I am looking forward to getting started with our office and service this autumn.» - Micke Kristiansson, General Manager of ColliCare Logistics AB*
